

## Declaration of Commitment to impartiality and independence

The senior management of Innoform GmbH Testservice commits to conducting all laboratory activities impartially and independently in accordance with DIN EN ISO/IEC 17025:2018. This commitment forms the basis for all activities and serves to ensure objective, traceable and reliable results.

### Principle of Impartiality

The laboratory conducts its activities impartially. It ensures that no commercial, financial, organizational or other influences affect the technical assessment, measurement results, or decision-making processes. Management recognizes the responsibility for maintaining impartiality as a top priority.

### Independence and freedom from external influence

The laboratory's managers and technical staff are not bound by any instructions regarding the conduct, evaluation, and approval of tests or the preparation of test reports. Internal or external instructions that could compromise objectivity will not be accepted.

### Identification and Control of Risks to Impartiality

Management is committed to continuously identifying, analyzing, evaluating and documenting potential risks of conflicts of interest. Necessary risk mitigation measures are implemented immediately and regularly reviewed for effectiveness. Management and technical staff have the necessary authority to implement, maintain and improve the management system.

### Managing conflicts of interest

The laboratory does not engage in any activities that could compromise its independence or impair its integrity in connection with conformity assessment activities. Commercial, financial, or other pressure on the laboratory or its staff is not permitted. Should such pressure become apparent, it must be reported immediately to laboratory management, which will take appropriate countermeasures.

### Commitment by Management

Management personally commits to ensuring compliance with these principles, exemplifying them in their daily work and making them accessible to all employees.

Management confirms that this statement will be communicated, reviewed regularly and updated as needed.
